

Robert Jacobson. M.D.  
Pediatrician  
Mayo Clinic Children's Center

## World Breastfeeding Week

Dr. Robert Jacobson #1:

“It's a remarkably economical way for a family to proceed with feeding as well, so it combines health benefits as well economical benefits that the family should consider.”

Dr. Robert Jacobson #2

“Not everyone can breast feed, but those who can should make very effort to do so.”

Dr. Robert Jacobson #3

“One of the most important features employers can do is make sure they've equipped all of the work places with clean inviting places where a woman can pump and store the breast milk in a refrigerated environment that women can take home at the end of the day. We've got to stop regulating women to janitors closets and shared bathrooms.”

Dr. Robert Jacobson #4

“We have women who have tried hard and for one reason or another cannot. That maybe completely out of their control. We have infants who just can't learn because of

illness or injury, are unable to nurse. That's why were very fortunate in this country to have the FDA monitor so closely the manufacture of formula.”
